

Compaction and Liquid Extraction

A Waste Processing Solution

revolution™ technology is particularly effective in dramatically reducing the liquid content of waste streams. It is highly successful in removing liquids from food, beverage, household products and cosmetic packaging. The high compaction ratios achieved substantially increase the capacity of the waste containers. The reduced volume greatly reduces the number of “tips” or times the container must be emptied.

revolution™ technology can provide a waste processing solution for a variety of other purposes. It is available in “dry” or “wet configurations” and can accommodate a number of discharge options. Failsafe operation and automatic shut-down are standard.

The dry application is also suited to secure product destruction. The product is broken down to such an extent that it is either rendered worthless or is totally destroyed.

revolution™ 2000 series with pallet tipper and lift equipment

revolution™ 2000 series removing liquids from re-pulping waste stream

Patented Screw Technology

Forklift operated pallet tipper equipment

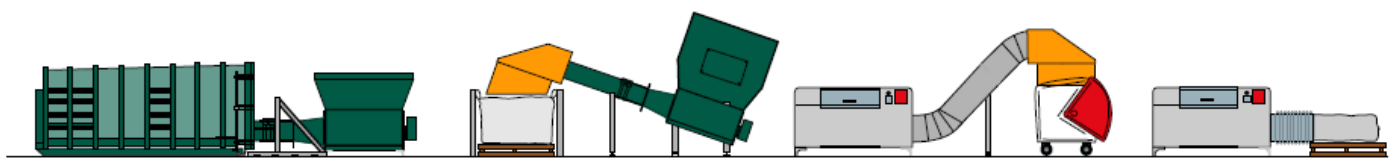

Typical Compaction Ratios and Densities		
Organics	3:1	900 kg/m ³
Wood	10:1	1000 kg/m ³
Mixed General	10:1	800 kg/m ³
Cardboard	25:1	800 kg/m ³
Plastics	50:1	600 kg/m ³
Steel	50:1	1500 kg/m ³
Aluminum Cans	60:1	1200 kg/m ³

Options

- Automatic start/ stop capability
- Sanitation fogger
- Automatic odor control system
- Fan extraction
- Liquid collection tank c/ w filters
- Custom hopper extensions to suit loading requirements
- Conveyor feeding
- Sausage wrapping kit
- Waste skip full warning system
 - To 1100L bin c/ w cowl
- Custom discharge tube options
 - Bin lift systems
 - Custom colors
 - Adjustable compaction density
 - Stand/ platform/ trailer options
 - Stand/ Roll On & Roll Off (Ro-Ro) platform mountings
 - 35 cubic yard docking bay and bin blank
 - Special motors to 45 Kw
 - Notched and double helix screws
 - Pallet tipper
 - Straight discharge tube:
 - To compactor bin
 - To 35 cubic yard Ro-Ro bin

DISCHARGE OPTIONS

Standard 35 cu yd Ro-Ro container

IBC Nylon Sack

Standard 1100 litre Euro Bin

Polythene Sausage wrap
